Oom who comes from Cape Town, South Africa, recalls his childhood there with stories of true-life characters that are used as a backdrop for his dating escapades in British Columbia, Canada. In his sixties. He takes the readers from one encounter to the next with graphic portrayals of the multitude of fascinating and humorous characters that pop up everywhere: ladies with small dogs, and those with large ones. You will learn about the difference between a meeting and a proper date, and discover some people's date-rules that produce comedic outcomes. The satirical style that relies on irony and, often on confusion, is told in unassuming and simple language that allows the players within each story to enact their own personalities upon the stage of the main character's canvas and desperate attempts to secure a lover. As each escapade unfolds, the situation seems desperate. Does he finally succeed? This is the funniest book you will read this year. Perhaps this decade.
