Democratic Deliberation in Deeply Divided Societies:: From Conflict to Common Ground
What does a deliberative democracy look like in a divided society? What obstacles and opportunities are there for the promotion of a deliberative democracy at the institutional and citizen levels? Through case-analysis and cross-sectional assessment of nine countries, this unique and important collection provides a detailed and insightful exploration into these problematic questions. A roll call of leading experts on deliberative democracy explores some of the most deeply divided societies in the world today, ranging from Northern Ireland to Nigeria and Belgium to the Basque Country, specifying conditions under which deliberative democracies could realistically emerge in unpropitious contexts. This collection is recommended reading for students and scholars of deliberative democracy and of politics in divided societies.
