**Letterwriting in Renaissance England** Folger Shakespeare Library
"Letterwriting in Renaissance England" reproduces in full size and provides transcriptions of letters from the early sixteenth to the early eighteenth centuries. Both a sourcebook for scholars and a treasure trove for the general reader, this book includes sections on love letters, secret letters, letter-writing manuals, and on the tools required to write letters. It describes the beginnings of the postal service in England and introduces a consistent terminology for describing Renaissance letters and their various parts. The letters of this collection speak for themselves. They are funnier, richer, more bizarre, and more moving than anything the fiction of the period has to offer, and lead to a more convincing picture of everyday life in early modern England.
