Post-Scarcity Anarchism (Working Classics) Murray Bookchin

In this series of essays, Murray Bookchin balances his ecological and anarchist vision with the promising opportunities of a “post-scarcity” era. Technological advances during the 20th century have expanded production in the pursuit of corporate profit at the expense of human need and ecological sustainability. New possibilities for human freedom must combine an ecological outlook with the dissolution of hierarchical social relations, capitalism and canonical political orientation. Bookchin’s utopian vision, rooted in the realities of contemporary society, remains refreshingly pragmatic. “Book-chin makes a trenchant analysis of modern society and offers a pointed, provocative discussion of the ecological crisis.”—*Library Journal*

Murray Bookchin has been an active voice in the ecology and anarchist movements for more than 40 years.

In Oakland, California on March 24, 2015 a fire destroyed the AK Press warehouse along with several other businesses. Please consider visiting the AK Press website to learn more about the fundraiser to help them and their neighbors.
