WE KNOW THE LSAT
The experts at The Princeton Review take the LSAT and other standardized tests several times a year to make sure you get the most up-to-date, thoroughly researched books possible.

WE KNOW STUDENTS
Each year we help more than two million students score high with our courses, bestselling books, and award-winning software.

WE GET RESULTS
Students who take our six-week LSAT course have an average score increase of 70 points (verified by International Communications Research). The proven techniques we teach in our course are in this book.

AND IF IT'S ON THE LSAT, IT'S IN THIS BOOK
We dont' try to teach you everything there is to know about reading comprehension or analytic thinking. We just tell you what you'll need to know to score high on the LSAT. There's a big difference. In Cracking the LSAT, we'll teach you how to think like the test makers and

*Eliminate answer choices that look right but are planted to fool you
*Crack complex argument problems by zeroing in on the conclusion
*Use powerful methods of diagramming to solve games problems
*Ace the reading-comprehension sections by "mapping out" the passages
*Improve your writing sample by knowing what they're really looking for

This book includes two full-length sample tests. The questions in the test are the same kind of problems you'll see on teh actual LSAT, and we fully explain every solution.
