Henry the Second Alice Stopford Green
The history of the English people would have been a great and a noble history whatever king had ruled over the land seven hundred years ago. But the history as we know it, and the mode of government which has actually grown up among us is in fact due to the genius of the great king by whose will England was guided from 1154 to 1189. He was a foreign king who never spoke the English tongue, who lived and moved for the most part in a foreign camp, surrounded with a motley host of Brabançons and hirelings; and who in intervals snatched from foreign wars hurried for a few months to his island-kingdom to carry out a policy which took little heed of the great moral forces that were at work among the people. It was under the rule of a foreigner such as this, however, that the races of conquerors and conquered in England first learnt to feel that they were one.
