Press Reviews

"We've come to the right place, because we've read Dan Brown's Inferno thoroughly, but when immersed in the places of this travel guide, we get the feeling it could be the other way around. Namely, when I first arrive in Italy, this book and finding the locations could motivate me, just as well, to read the original, the real Dan Brown. In the best sense of the word, this book is a preparation for the novel, like a quest and a follow-up simultaneously.
