JP-8 100LT: A Low Cost Replacement of JPTS as the Primary Fuel for the U-2 Aircraft? Christian G. Simms

This is a AIR FORCE INST OF TECH WRIGHT-PATTERSON AFB OH SCHOOL OF ENGINEERING AND MANAGEMENT report procured by the Pentagon and made available for public release. It has been reproduced in the best form available to the Pentagon. It is not spiral-bound, but rather assembled with Velobinding in a soft, white linen cover. The Storming Media report number is A242193. The abstract provided by the Pentagon follows: The Air Force currently spends approximately $ 10 million dollars annually on fuel support for the U-2 aircraft. The U-2 has used a jet fuel known as JPTS since the aircraft's development in the 1950's. JPTS is a specialty fuel used only by the U-2 and is produced by two oil refineries in the United States. As such, it has limited worldwide availability and costs over three times the per-gallon price of the Air Force's primary jet fuel, JP-8. Recent research performed at the Air Force Research Laboratory Propulsion Directorate suggests that additives could be added to JP-8, which would make it a suitable low-coast replacement for JPTS. The additive-enhanced fuel has come to be known as JP-8+100LT. This study analyzed two variables, logistics benefits and costs, and compared these variables for JPTS and JP-8+100LT to discover which one provides the most logistical benefits for the annual cost. The results of the analysis concluded that JP-8+100LT offers more benefits at significant cost savings.

From reader reviews:

Douglas Stevens:

Reading a book can be one of a lot of pastime that everyone in the world adores. Do you like reading book so. There are a lot of reasons why people love it. First reading a reserve will give you a lot of new data. When you read a e-book you will get new information simply because book is one of a number of ways to share the information or maybe their idea. Second, reading a book will make anyone more imaginative. When you reading a book especially fictional works book the author will bring one to imagine the story how the personas do it anything. Third, you can share your knowledge to other individuals. When you read this JP-8 100LT: A Low Cost Replacement of JPTS as the Primary Fuel for the U-2 Aircraft?, you can tells your family, friends and also soon about yours e-book. Your knowledge can inspire the others, make them reading a book.

Tammie Turman:

Are you kind of busy person, only have 10 or 15 minute in your day time to upgrading your mind skill or thinking skill actually analytical thinking? Then you have problem with the book compared to can satisfy your limited time to read it because all this time you only find publication that need more time to be read. JP-8 100LT: A Low Cost Replacement of JPTS as the Primary Fuel for the U-2 Aircraft? can be your answer given it can be read by anyone who have those short extra time problems.

Rachel Cady:

The book untitled JP-8 100LT: A Low Cost Replacement of JPTS as the Primary Fuel for the U-2 Aircraft? contain a lot of information on this. The writer explains her idea with easy means. The language is very simple to implement all the people, so do definitely not worry, you can easy to read the item. The book was compiled by famous author. The author will bring you in the new era of literary works. You can easily read this book because you can read on your smart phone, or gadget, so you can read the book inside anywhere and anytime. In a situation you wish to purchase the e-book, you can available their official web-site along with order it. Have a nice study.

Sebrina Knapp:

A number of people said that they feel bored when they reading a publication. They are directly felt it when they get a half elements of the book. You can choose the book JP-8 100LT: A Low Cost Replacement of JPTS as the Primary Fuel for the U-2 Aircraft? to make your personal reading is interesting. Your current skill of reading proficiency is developing when you including reading. Try to choose very simple book to make you enjoy to read it and mingle the sensation about book and studying especially. It is to be initial opinion for you to like to open a book and learn it. Beside that the e-book JP-8 100LT: A Low Cost Replacement of JPTS as the Primary Fuel for the U-2 Aircraft? can to be your friend when you're really feel alone and confuse in doing what must you're doing of their time.
