Night Terrors 2 Jason Wallace
My newest batch of crazed killers, from witches, to the possessed, to serial killers and those seeking revenge for old murders, plus the bonus of true and haunting stories from my own life. Sometimes, monsters are created by the very people set out to stop them. Learn the origins of the Salem Witch Trials, how evil finds its way back into this world, and much more.

Hammer of the Witches: October 13, 1518; Somerset, England: Eight women are accused of witchcraft and heresy. Using the Malleus Maleficarum, Magistrate Peter Haystead and Father Samuel seek their own brand of justice against the women. This religious fanaticism is plenteous for torture and condemnation of such women, though it is the action of the leaders that creates the very witchcraft that they condemn. Their creation, Abigail Woodhall, thirsts for the blood of all bearing descent from the magistrate and claims minions for this bidding, bringing about the roots of the witchcraft of Salem, Massachusetts nearly two centuries later.

Hideous: The Revenants: What would you do if your great-great-grandfather wanted your body... so that he could make his "beloved" live again? Everyone thinks that Julia has gone insane, "just like her father." Unable to convince anyone, she takes matters into her own hands to stop the evil plans of the revenants haunting and taking over her life, before they can resurrect their spirits into bodies and wreak havoc on the world.

Death's Lair: Hasn't anyone learned not to have a haunted house around Halloween? Be careful who you let in. In with the good, in with the bad. Maybe, the blood on the walls and floors is real. Sometimes, the killers inside are real.

The Diary of Heather Summerall and the Evil of Adams House: Heather buys a house that many swear is inhabited by the spirit of a child murderer, but she doesn't know the extent of things nor believe that any of the rumors could be true. When much more happens than she can logically explain, she seeks out the history of the house and anyone that knows more to it. Will she sacrifice herself for the only family that she has left, or will he be the very instrument for Hannibal Adams to rise from the dead and resume his bloody work?

The Sins of the Past: Kevin Kendrick must come to terms with his grandfather not being who he's always been thought to be and that he killed Kevin's real grandfather decades ago. As times wears on, Kevin feels his mind slipping away, with each tick of the clock stealing something from him. Can he learn to forgive and put everything in the past, where it's always been, or can he, a mild-mannered man, bring justice full circle?

11 Strangely True and Very Absurd Tales: These are 11 of the strangest tales ever told. 8 of them happened to the author and are 100% true. The rest could be. Dare to venture further and find out for yourself?

The soul beholds more than the mind. Some souls are more welcoming, and for this reason, some are more open to experiences with those that have passed on, but some of these welcoming souls are truly cursed with continual visitations. The Wallace family has surely had more experiences than most. These are just 11 of such experiences, though there have been more, not recounted here.
