Virtualization Essentials Matthew Portnoy
Learn virtualization skills by building your own virtual machine

Virtualization Essentials, Second Edition provides new and aspiring IT professionals with immersive training in working with virtualization environments. Clear, straightforward discussion simplifies complex concepts, and the hands-on tutorial approach helps you quickly get up to speed on the fundamentals. You'll begin by learning what virtualization is and how it works within the computing environment, then you'll dive right into building your own virtual machine. You'll learn how to set up the CPU, memory, storage, networking, and more as you master the skills that put you in-demand on the job market. Each chapter focuses on a specific goal, and concludes with review questions that test your understanding as well as suggested exercises that help you reinforce what you've learned.

As more and more companies are leveraging virtualization, it's imperative that IT professionals have the skills and knowledge to interface with virtualization-centric infrastructures. This book takes a learning-by-doing approach to give you hands-on training and a core understanding of virtualization.

- Understand how virtualization works
- Create a virtual machine by scratch and migration
- Configure and manage basic components and supporting devices
- Develop the necessary skill set to work in today's virtual world

Virtualization was initially used to build test labs, but its use has expanded to become best practice for a tremendous variety of IT solutions including high availability, business continuity, dynamic IT, and more. Cloud computing and DevOps rely on virtualization technologies, and the exponential spread of these and similar applications make virtualization proficiency a major value-add for any IT professional. *Virtualization Essentials, Second Edition* provides accessible, user-friendly, informative virtualization training for the forward-looking pro.

From reader reviews:

Johanna Garrett:

Now a day folks who Living in the era just where everything reachable by connect to the internet and the resources included can be true or not demand people to be aware of each information they get. How many people to be smart in obtaining any information nowadays? Of course the reply is reading a book. Examining a book can help people out of this uncertainty Information specifically this Virtualization Essentials book because this book offers you rich facts and knowledge. Of course the data in this book hundred pct guarantees there is no doubt in it you know.

Robert Nobles:

A lot of people always spent their particular free time to vacation or perhaps go to the outside with them friends and family or their friend. Do you know? Many a lot of people spent they free time just watching TV, or even playing video games all day long. If you want to try to find a new activity this is look different you can read any book. It is really fun for yourself. If you enjoy the book which you read you can spent the entire day to reading a reserve. The book Virtualization Essentials it is quite good to read. There are a lot of people that recommended this book. They were enjoying reading this book. Should you did not have enough space to deliver this book you can buy the actual e-book. You can m0ore easily to read this book from a smart phone. The price is not to fund but this book features high quality.

Gary Ritchie:

People live in this new morning of lifestyle always try and and must have the free time or they will get lot of stress from both way of life and work. So , once we ask do people have free time, we will say absolutely indeed. People is human not a robot. Then we question again, what kind of activity have you got when the spare time coming to you actually of course your answer will certainly unlimited right. Then do you ever try this one, reading guides. It can be your alternative in spending your spare time, the particular book you have read is Virtualization Essentials.

Harry Cofield:

This Virtualization Essentials is great publication for you because the content that is full of information for you who all always deal with world and possess to make decision every minute. That book reveal it facts accurately using great organize word or we can say no rambling sentences included. So if you are read the item hurriedly you can have whole facts in it. Doesn't mean it only offers you straight forward sentences but tricky core information with beautiful delivering sentences. Having Virtualization Essentials in your hand like keeping the world in your arm, info in it is not ridiculous one. We can say that no book that offer you world with ten or fifteen small right but this book already do that. So , this can be good reading book. Heya Mr. and Mrs. stressful do you still doubt this?
