Causation and the Principle of Sufficient Reason (The God Series Book 21) Mike Hockney
The cleverest people in the world are those most capable of making the least expected connections between apparently disparate things. This book explains how light, life, mind, souls, causation, motion, energy, ontological mathematics and ontological reason are all synonymous.

Are you one of the rare few capable of seeing the light? Can you see the hidden mathematical order beneath the Grand Illusion presented to our senses? Only those on the verge of Enlightenment have any hope of understanding ontological mathematics, the science of the soul, the science of the unseen light of the Universal Mind.

It’s all in the math.

"If then you do not make yourself equal to God, you cannot apprehend God; for like is known by like." - Hermes Trismegistus
