Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision)

C. H. Chen

Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision) C. H. Chen
This book gives a comprehensive overview of the most advanced theories, methodologies and applications in computer vision. Particularly, it gives an extensive coverage of 3D and robotic vision problems. Example chapters featured are Fourier methods for 3D surface modeling and analysis, use of constraints for calibration-free 3D Euclidean reconstruction, novel photogeometric methods for capturing static and dynamic objects, performance evaluation of robot localization methods in outdoor terrains, integrating 3D vision with force/tactile sensors, tracking via in-floor sensing, self-calibration of camera networks, etc. Some unique applications of computer vision in marine fishery, biomedical issues, driver assistance, are also highlighted.

From reader reviews:

Henry Evans:

Here thing why that Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision) are different and trustworthy to be yours. First of all reading through a book is good nevertheless it depends in the content of it which is the content is as delicious as food or not. Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision) giving you information deeper as different ways, you can find any e-book out there but there is no book that similar with Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision). It gives you thrill reading through journey, its open up your own eyes about the thing this happened in the world which is maybe can be happened around you. You can easily bring everywhere like in park your car, café, or even in your technique home by train. In case you are having difficulties in bringing the branded book maybe the form of Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision) in e-book can be your choice.

Tony Jacobson:

In this era globalization it is important to someone to find information. The information will make someone to understand the condition of the world. The healthiness of the world makes the information much easier to share. You can find a lot of sources to get information example: internet, newspapers, book, and soon. You will observe that now, a lot of publisher that print many kinds of book. The book that recommended to your account is Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision) this guide consist a lot of the information in the condition of this world now. This specific book was represented how does the world has grown up. The words styles that writer require to explain it is easy to understand. Often the writer made some exploration when he makes this book. Here is why this book appropriate all of you.

Rebecca Moreno:

As we know that book is significant thing to add our knowledge for everything. By a publication we can know everything we would like. A book is a set of written, printed, illustrated or perhaps blank sheet. Every year ended up being exactly added. This book Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision) was filled regarding science. Spend your extra time to add your knowledge about your technology competence. Some people has various feel when they reading a new book. If you know how big benefit of a book, you can sense enjoy to read a publication. In the modern era like right now, many ways to get book you wanted.

David Perrin:

Reading a guide make you to get more knowledge from this. You can take knowledge and information coming from a book. Book is prepared or printed or illustrated from each source this filled update of news. On this modern era like at this point, many ways to get information are available for anyone. From media social just like newspaper, magazines, science guide, encyclopedia, reference book, new and comic. You can

add your knowledge by that book. Ready to spend your spare time to spread out your book? Or just looking for the Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision) when you required it?
