On the Bottom: The Raising of the Submarine S-51 Edward Ellsberg
On September 25, 1925, the *S-51* tragically sank to the ocean floor, and Edward Ellsberg was the man whose courage and determination brought it back

The sinking of the submarine *S-51* was one of the greatest tragedies in American naval history. Due to a miscommunication and subsequent collision between the sub and a passing steamship on a September night, the *S-51*, including thirty-three of its crew of thirty-six, sank to the ocean depths. The tragedy of the *S-51* captivated the nation, and was a fixture in the pages of American newspapers. The story took on a whole new dimension when the navy decided to take over the salvage of the thousand-ton behemoth from a civilian company.

Heading the crew tasked with this impossible feat was Edward Ellsberg, at the time a lieutenant commander. *On the Bottom* is Ellsberg's account of the successes and failures he and his men experienced as they attempted an astonishing feat of engineering and bravery: the first salvage of a submarine from the open ocean.
