Restoring the Original Bible Ernest L. Martin
This book approaches the question of what books belong in the Bible from a different point of view, and it is, as I see it, the correct one. I start with the belief that God the Father and Christ Jesus were the ones who decided what the canon of the Old and New Testaments should be, and that they gave deliberate authority to certain men to accomplish the task of canonization. This book presents new and refreshing evidence to show that the biblical books of the basic Protestant canon are the proper and authoritative ones. This book also reveals, however, that the documents of the Bible were at first arranged differently and placed in seven major divisions that are at variance with all modern Bible versions. I show that we ought to return to the original manuscript arrangement of the biblical books. This book also reveals what the original Bible was like when it first left the hands of the authorized canonizers. It provides the proper evidence to assure all Christians today that we can have the original Bible that the official canonizers intended. In a word, this book concerns the history (not the guessing game) of biblical canonization in regard to the number and order of the biblical books. I hope to give all readers some real facts from the Bible and history that will eliminate much of that guessing that all of us have been saddled with up to now. It is not a matter of arrogance for me to make this statement because I will present to my readers some of the most common sense evidence that anyone could ask for. It is time to look at the Bible in a new a proper way that will dispense with much of the guessing that prevails in the theological world today about this subject. This book concerns the need for people of the world to take an interest in and to do their part in "Restoring the Original Bible."
