Complete Write a Novel Course (Teach Yourself) Will Buckingham
Designed to take you from the moment you first put pen to paper right through to the process of contacting publishers (or uploading an ebook file) and promoting your book, this is the most important book on writing that you'll ever read. It introduces you to the craft of fiction writing, the art of words and the way in which to use them. It gives you inspiration, ideas and practical advice.

It gives you the background and the skills you'll need to succeed.

Unlike other books on the market, however, it also helps you begin to critique your own work, meaning that at every step of the writing process you?ll be producing the best art you can. There are plenty of other essential writing tools in this book, as well, including techniques for overcoming writer?s block; with nearly a quarter of the book focussing on how to get published, how to publish yourself, which courses you do - and don't - need, the nuts and bolts of competitions and festivals and the importance of social media, this really is the most comprehensive companion to the subject available.
