George and Robert Stephenson: The Railway Revolution

L.T.C. Rolt

George and Robert Stephenson: The Railway Revolution L.T.C. Rolt
The railways were the most revolutionary innovation of Victorian times. They carried Britain into the modern age with dramatic speed, transforming the pace and style of everyday life. We owe them to two men who, father and son, can lay claim to be the most important engineers of their time, George and Robert Stephenson. In this excellent biography L.T.C. Rolt author of Victorian Engineering and Thomas Telford, assesses their lives and their work.

‘Mr Rolt is a master of correct terminology and can even turn it to literary advantage where, under another hand, it would cumber context as jargon. This gift, coupled with his own practical knowledge of mechanical and civil engineering, has enabled the author to produce yet another contribution to English history, which would have been quite beyond the power of the academic historian’
Edward Vale in the Observer
