Dating

isn’t easy. I know it, you know it, everyone knows it. No matter where you look, from TV to movies to advertising, there’s always someone trying to sell you a formula. Wear this, act like this, do this, and you’ll have the person of your dreams in no time. Unfortunately, it isn’t actually that simple. Dating is much more complicated than throwing on some body spray and pulling out a couple bad one-liners. There’s no on-size-fits-all strategy and even if there was one, it’s no guarantee that everyone will respond to it the same way. It takes time and effort. People are different. What works for one person or for one couple may not work for another. That being said, there are some key concepts that tend to lead to more successful relationships.
If you’re looking for a quick, easy way to get laid or that one-size-fits-all strategy, this is probably not the book you’re looking for. But if you’re looking to seriously improve your relationship skills and land a long term, meaningful partnership, then This book is for you.
