Macroeconomics Rudiger Dornbusch, Stanley Fischer, Richard Startz
Dornbusch, Fischer, and Startz has been a long-standing, leading intermediate macroeconomic theory text since its introduction in 1978. This revision retains most of the text's traditional features, including a middle-of-the-road approach and very current research, while updating and simplifying the exposition. This revision focuses on making the text even easier to teach from. The only pre-requisite continues to be principles of economics.
