Math Workout for the New SAT (College Test Preparation) Princeton Review
The Princeton Review realizes that acing the SAT Math section is very different from getting straight A's in geometry and algebra. We don't try to teach you everything there is to know about math–only the techniques and information you'll need to score higher on the Math section of the SAT. In *Math Workout for the SAT*, we'll teach you how to think like the test writers and

-Eliminate answer choices that look correct but are designed to confuse you
-Tackle important material, including Algebra II problems and more challenging math concepts
-Improve your Math score with the most effective test-taking techniques, including Plugging In and Order of Difficulty

This book includes more than 50 quizzes and problem sets to sharpen your test-taking skills. All of our simulated test questions are like those you'll see on the actual SAT. To help you improve your score even further, we fully explain every solution.
