Pathways to Adulthood for Disconnected Young Men in Low-Income Communities: New Directions for Child and Adolescent Development, Number 143 (J-B CAD Single Issue Child & Adolescent Development)

As the chapters in this volume demonstrate, young, disadvantaged men from urban neighborhoods face a unique set of challenges and constraints as they transition to adulthood. Yet, these challenges are not always contained by place.

Research among Latino and White disadvantaged men in nonurban settings highlights the pressures that come along with fatherhood for disadvantaged men. In contrast to popular understandings of absent or disengaged fathers, findings reveal how fatherhood and increasing levels of interdependence during early adulthood can buffer men as they make the difficult transition to adulthood. The innovative field-based research featured in this volume illuminates the contexts, processes, and meanings in life pathways for disadvantaged men as they move from adolescence into adulthood and should help to inform policies and practices directed at minimizing their marginalization from mainstream society.

This is the 143rd volume in this series. Its mission is to provide scientific and scholarly presentations on cutting edge issues and concepts in child and adolescent development. Each volume focuses on a specific new direction or research topic and is edited by experts in that field.
