The Dolomites: Rock Climbs and via Ferrata (Rockfax Climbing Guide Series) James Rushforth
The elegant and dramatic peaks of the Dolomites, one of the most recently designated UNESCO World Heritage Sites, have long epitomised the ideals of climbers the world over. These spectacular limestone and dolomite monoliths rise abruptly from beautiful meadows, their pale faces contrasting starkly with the vibrant colour of the surrounding alpine pastures, to create one of the most instantly recognisable landscapes in the World. Located in northern Italy, and representing a true mix of Italian and Austrian culture, these so-called 'Pale Alps' contain climbing of every shape and size. Single pitch sport crags lie beside kilometre-long traditional routes, with climbs which are steeped in history running parallel to modern bolted lines. The area is particularly renowned for its via ferrata, cabled routes predating the Great War which give superb access to some of the World's most striking summits. The metal wires, interspersed with breathtaking ladders and unlikely suspension bridges, provide aerial assault courses which combine the thrill of an ascent on rock with the security of a protected mountain scramble. This Rockfax guide covers everything you need for a climbing trip regardless of ability, whether it be sport, trad, via ferrata or a combination of all three. It features all the major areas and is the only guidebook available to have such comprehensive coverage. Catinaccio, Val di Fassa, Marmolada, Sella Group, Val Gardena, Fanis Group, Lagazuoi Group, Tofana Group, Cinque Torri, Cortina Basin, Cadini di Misurina, Tre Cime.

From reader reviews:

Jesse Williams:

The book The Dolomites: Rock Climbs and via Ferrata (Rockfax Climbing Guide Series) gives you the sense of being enjoy for your spare time. You can use to make your capable a lot more increase. Book can to be your best friend when you getting stress or having big problem with the subject. If you can make examining a book The Dolomites: Rock Climbs and via Ferrata (Rockfax Climbing Guide Series) to become your habit, you can get a lot more advantages, like add your own personal capable, increase your knowledge about many or all subjects. You could know everything if you like wide open and read a e-book The Dolomites: Rock Climbs and via Ferrata (Rockfax Climbing Guide Series). Kinds of book are a lot of. It means that, science publication or encyclopedia or other folks. So , how do you think about this reserve?

Angel Huitt:

Do you considered one of people who can't read gratifying if the sentence chained inside straightway, hold on guys that aren't like that. This The Dolomites: Rock Climbs and via Ferrata (Rockfax Climbing Guide Series) book is readable by simply you who hate the perfect word style. You will find the information here are arrange for enjoyable reading experience without leaving also decrease the knowledge that want to deliver to you. The writer connected with The Dolomites: Rock Climbs and via Ferrata (Rockfax Climbing Guide Series) content conveys thinking easily to understand by a lot of people. The printed and e-book are not different in the written content but it just different available as it. So , do you nevertheless thinking The Dolomites: Rock Climbs and via Ferrata (Rockfax Climbing Guide Series) is not loveable to be your top checklist reading book?

Peter Pitts:

Nowadays reading books are more than want or need but also become a life style. This reading practice give you lot of advantages. The benefits you got of course the knowledge even the information inside the book that improve your knowledge and information. The knowledge you get based on what kind of reserve you read, if you want attract knowledge just go with knowledge books but if you want feel happy read one together with theme for entertaining such as comic or novel. Typically the The Dolomites: Rock Climbs and via Ferrata (Rockfax Climbing Guide Series) is kind of publication which is giving the reader unstable experience.

Bertram Staten:

Precisely why? Because this The Dolomites: Rock Climbs and via Ferrata (Rockfax Climbing Guide Series) is an unordinary book that the inside of the guide waiting for you to snap the idea but latter it will zap you with the secret the item inside. Reading this book adjacent to it was fantastic author who also write the book in such awesome way makes the content inside of easier to understand, entertaining method but still convey the meaning fully. So , it is good for you for not hesitating having this anymore or you going to regret it. This

amazing book will give you a lot of advantages than the other book include such as help improving your skill and your critical thinking way. So , still want to hesitate having that book? If I were being you I will go to the book store hurriedly.
