This Gospel: The Foundation Frank J. Ovec
What exactly are the six days of Creation, and do they conflict with modern cosmology? Certainly not, says Frank Ovec. In fact, with a knowledge of the pattern of God, suggested within this book, even the concept of a "big bang" is quite reasonable.

Is there a predestined resurrection of history within the hearts and minds of men? Surely an understanding of "reciprocal dating," also suggested in this book, can prove that. Yet with prophetic knowledge increasing in these days, we can determine within reasonable proximity the age of the "Day of the Lord" and the reappearance of Jesus Christ.
