Of Heaven and Earth: Essays Presented at the First Sitchin Studies Day Madeleine Briskin, Neil Freer Contains information on Sitchin's theories about the origins of mankind and the intervention of intelligence from beyond the earth in ancient times. He and other contributors offer a scholarly approach to the ancient astronaut theory. Chapters by Zecharia Sitchin, Neil Freer, J. Antonio Huneeus, Father Charles Moore, V. Susan Ferguson, and two university professors, Madeleine Briskin and Marlene Evans. Were certain myths actual events instead of figments of imagination? They all agree on this, and that Sitchin's work is the early part of a new paradigm -- one that is beginning to shake the very foundations of religion, archaeology and our society in general.
