Programming Neural Networks with Encog3 in C#, 2nd Edition Jeff Heaton
Encog is an advanced Machine Learning Framework for Java, C# and Silverlight. This book focuses on using the neural network capabilities of Encog with the C# programming language. This book begins with an introduction to the kinds of tasks neural networks are suited towards. The reader is shown how to use classification, regression and clustering to gain new insights into data. Neural network architectures such as feedforward, self organizing maps, NEAT, and recurrent neural networks are introduced. This book also covers advanced neural network training techniques such as back propagation, quick propagation, resilient propagation, Levenberg Marquardt, genetic training and simulated annealing. Real world problems such as financial prediction, classification and image processing are introduced.

From reader reviews:

Juan McCain:

Why don't make it to be your habit? Right now, try to prepare your time to do the important act, like looking for your favorite reserve and reading a guide. Beside you can solve your short lived problem; you can add your knowledge by the guide entitled Programming Neural Networks with Encog3 in C#, 2nd Edition. Try to make the book Programming Neural Networks with Encog3 in C#, 2nd Edition as your pal. It means that it can for being your friend when you experience alone and beside that of course make you smarter than previously. Yeah, it is very fortuned in your case. The book makes you considerably more confidence because you can know every little thing by the book. So , let me make new experience along with knowledge with this book.

Jerry Orosco:

In this time globalization it is important to someone to find information. The information will make someone to understand the condition of the world. The fitness of the world makes the information easier to share. You can find a lot of personal references to get information example: internet, paper, book, and soon. You will observe that now, a lot of publisher that will print many kinds of book. The actual book that recommended to you personally is Programming Neural Networks with Encog3 in C#, 2nd Edition this publication consist a lot of the information in the condition of this world now. This book was represented how can the world has grown up. The language styles that writer use to explain it is easy to understand. Often the writer made some research when he makes this book. Honestly, that is why this book acceptable all of you.

Carmelita Ratliff:

Do you like reading a guide? Confuse to looking for your chosen book? Or your book had been rare? Why so many problem for the book? But any people feel that they enjoy for reading. Some people likes reading through, not only science book but also novel and Programming Neural Networks with Encog3 in C#, 2nd Edition as well as others sources were given know-how for you. After you know how the truly amazing a book, you feel want to read more and more. Science publication was created for teacher or students especially. Those guides are helping them to bring their knowledge. In different case, beside science publication, any other book likes Programming Neural Networks with Encog3 in C#, 2nd Edition to make your spare time much more colorful. Many types of book like this.

Kimberly Dyer:

As a university student exactly feel bored to help reading. If their teacher requested them to go to the library or make summary for some book, they are complained. Just very little students that has reading's heart or real their hobby. They just do what the trainer want, like asked to the library. They go to generally there but nothing reading seriously. Any students feel that examining is not important, boring in addition to can't see colorful pics on there. Yeah, it is to become complicated. Book is very important in your case. As we know

that on this period, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this Programming Neural Networks with Encog3 in C#, 2nd Edition can make you feel more interested to read.
