FINANCIAL FREEDOM: How to Build Wealth, Book 2: The Best Information Warren Graham
This book is the best actionable narrative on How to Make Money. This book will change your life. FINANCIAL FREEDOM publications will offer you the best knowledge on: Personal Finance, Money Management, Investing Basics, Investment Management, Financial Planning, Stock Investing, Mutual Funds, Options Trading, Real Estate Investing, Retirement Planning, and much more. FINANCIAL FREEDOM publications are conservative books on all the topics of money investment. This book is the perfect guide for investment strategies, investing basics, and portfolio optimization. Consider this: Knowledge, The Most Important Thing in Achieving Goals. This book will teach you like a champion. It is perfectly fine to aspire—even necessary—to be financially rich—even very rich! Indeed, once you are very rich, you can bless other people with your generosity—financial power, in this case. Many people would like to be financially rich. Everything has an operator's manual though. In order to construct things, you need a plan—a good, reliable, plan. So, ready yourself to learn. Learning is the greatest asset-builder for you! Learning requires discipline. Financial wealth building—and its navigation—requires discipline. The rewards are quite worth it, however! This book—as well as other Financial Freedom publications—is designed to show you where the available assets—yours—are, how to produce good returns on them, and how to enjoy different financial plans. The key must be to construct, implement, and enjoy these financial plans during both "good" and "bad" markets—when you do get into serious/informed active investing.
I have decided, after many years of research, to publish the Financial Freedom education in form of several short books. That way you can readily choose which book fitly matches your particular situation. However, I recommend you read them in their proper order. These books will be rather good! Back to the discipline thing, now: To be successful in your financial wealth building you must overcome the obstacles, which might appear in the way. Build a solid plan! Yes, you are. Yes, you can. Really.
Even if you are very new to the subject of personal finance—and I do mean NEW, keep the discipline—and keep on keeping on! That is what it takes. Some things might appear a bit different—in terminology, structure, and the particular tool. So what? You are learning, and thereafter the rewards will come!
Remember this: the realm of Personal Finance and Investment is broad. You need a good understanding of this realm, in order to achieve Financial Freedom. These books will show you how to build wealth like a pro! I am using a conversational method to bring the information to you. The communication will be fine. Enjoy!
